Erickdevup
16/3/2023 - present
Frontend Web Developer React
I have been working as a contract in various blockchain projects as Frontend Developer NextJs / Chakraui in which I have interacted with API, performed form validation, created KYC processes with document and identity validation.

EDUCATION

MiduDev
Course Frontend Developer React
In this course I learned a lot about ReactJs: jsx, hooks, context, custom hooks, react rooter... I have put everything I learned into practice in my projects

MiduDev
Course Web Developer Nextjs
Un curso de Next.js te enseñaría a desarrollar aplicaciones web utilizando React y Node.js en el lado del servidor, lo que te permitiría crear aplicaciones web escalables y de alta calidad.

ABOUT ME

Hello, my name is Erick García, I'm 21 years old, I can quickly adapt to new challenges and technologies. I am really passionate about my job as a developer and I am constantly looking for ways to improve my skills and learn new technologies. I have a problem solving mindset and am always looking for ways to provide the best possible solution for every project I work on.
